MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDUSTRY STRUCTURE AND DEVELOPMENTS

The overall economic development and rising population of the country has led the Healthcare sector to become one of the largest sectors of the Indian economy, both in terms of revenue and employment.

Several factors continue to drive the growth of the Indian Healthcare sector including an aging population, a growing middle class and significant level of awareness, the rising proportion of lifestyle diseases, expanding health insurance coverage as well as accelerated adoption of digital technologies.

The Indian Government is further strengthening the healthcare sector by undertaking structural and sustained reforms and has been announcing conducive policies for encouraging FDI. The Aatmanirbhar Bharat Abhiyaan packages include several short – term and longer – term measures for the health system, including Production – Linked Incentive (PLI) schemes for boosting domestic manufacturing of pharmaceuticals and medical devices. Additionally, India is working towards becoming a hub for spiritual and wellness tourism, as the country has much to offer in Ayurveda and Yoga.

India’s healthcare industry largely comprises the key segments of hospitals, pharmaceuticals, diagnostics, medical devices and equipment, health insurance and medical tourism. India has emerged as one of the fastest – growing emerging economies over the last two decades, receiving significant FDI inflows. A slew of investments by global healthcare players have strengthened the perception of India as an attractive healthcare investment destination.

In the hospital segment, the expansion of private players to Tier 2 and Tier 3 locations, beyond metropolitan cities, offers an attractive investment Opportunity. In the medical devices and equipment segment, expansion of diagnostic and pathology centres as well as miniaturized diagnostics have high potential for growth. Medical Value Travel especially wellness tourism, also has bright prospects, given India’s inherent strengths in alternative systems of medicine.

OPPORTUNITIES AND THREATS

In India, private hospitals are essential to the provision of healthcare services. Around 70% of people living in rural areas and about 80% of people living in cities largely rely on private hospitals as their primary source of healthcare. The healthcare system would be thoroughly strengthened by the Ayushman Bharat Yojana, from primary to tertiary care. As per the Market Research analysis, the private hospital sector in India was valued at ₹ 11,606.50 Bn in FY 2022. It is expected to reach ₹ 26,825.45 Bn by FY 2027, expanding at a compound annual growth rate (CAGR) of ~18.60% during the FY 2023 – FY 2027 forecast period.

The self-pay segment dominated the market in FY 2022, accounting for 40.66% of total

revenue. The second-largest segment was government payer, followed by corporate insurer. The self-pay segment is expected to decline in market share, falling from 40.66% in FY 2022 to 35.21% in FY 2027. The expansion of insurance coverage by both government and corporate insurers is expected to reduce the self-pay market segment's share.

OUTLOOK

The World Economic Situation and Prospects report released by the United Nation has reposed its faith in the Indian economy. The report said that India is expected to grow by 5.8 percent in 2023 and 6.7 percent in 2024. With this, India is expected to remain the fastest – growing major economy in the world. The growth will be supported by resilient domestic demand. India remains a bright spot amid global economic uncertainty. With the moderation of global commodity prices and slower currency depreciation, inflation in India is expected to decelerate to 5.5 percent in 2023.

India's growth continues to be resilient despite some signs of moderation in growth, says the World Bank in its latest India Development Update. The update notes that although significant challenges remain in the global environment, India was one of the fastest growing economies in the world. The overall growth remains robust and is estimated to be 6.9 percent for the full year with real GDP growing 7.7 percent year-on-year during the first three quarters for fiscal year 2022-23. There were some signs of moderation in the second half of FY 2022-23. Growth was underpinned by strong investment activity bolstered by the government's capex push and buoyant private consumption, particularly among higher income earners. Inflation remained high, averaging around 6.7 percent in FY 2022-23 but the current – account deficit narrowed in Q3 on the back of strong growth in service exports and easing global commodity prices.

The World Bank has revised its FY 2023 – 24 GDP forecast to 6.3 percent from 6.6 percent (December 2022). Growth is expected to be constrained by slower consumption growth and challenging external conditions. Rising borrowing costs and slower income growth will weigh on private consumption growth, and government consumption is projected to grow at a slower pace due to the withdrawal of pandemic – related fiscal support measures.

The Indian healthcare system has experienced significant growth in the past two decades, making it one of the largest sectors of the country's economy. India's healthcare industry is estimated at ₹ 29.76 Lakh crore in 2022. Hospital business accounts for 80 percent of the healthcare industry, and is poised to increase at a CAGR of 16 – 17 percent. The private hospital sector in India is estimated at ₹ 13.67 Lakh Crore in FY 2023. It is expected to reach ₹ 26 Lakh Crore by FY 2027, expanding at a CAGR of 18.6 percent. 58 percent of hospitals in the country are privately owned, and account for 81 percent of doctors in India. 70 percent of households in Urban India and 63 percent of rural households depend on private hospitals for their family's healthcare.

RISKS AND CONCERNS

Risks are an unavoidable and integral part of any enterprise. Efficient management of business risks is a key factor that determines growth, profitability and at times, even survival. In the last few years, the healthcare industry in India has been witnessing increased

consolidation even among the larger players. Further, Government intervention, by way of an active regulatory regime, be it in terms of price control or capping of margins on medicines and implants has been stepped up. State and Central Healthcare coverage schemes are also impacting industry margins.

At Aashka Hospitals, we continue to strive for a focused approach on risk identification, management and mitigation. We are documenting operational risks and concerns at the unit level as well as the strategic and financial risks at the enterprise level in the form of a robust risk register. The aim is to improve responsibility accounting and bring the right stakeholders to focus on appropriate risk mitigation and monitoring measures at various levels within an organisation.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The internal control system has been designed to commensurate with the nature of business and complexity of operations and is monitored by the management to provide reasonable assurance on the achievement of objectives, effectiveness and efficiency of operations, reliability of financial reporting and compliance with applicable laws and regulations. The Company has institutionalized a robust process and internal control system commensurate with its size and operations.

We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors and Management is responsible for the preparation of the other information. The other information comprises the information obtained at the date of this auditor's report, but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information we are required to report that fact. We have nothing to report in this regard

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters except for the matters described in "**Basis for Qualified Opinion**" section. We have determined that there are no other key audit matters to communicate in our report.

Responsibility of Management for Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, (changes in equity) and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors is also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but

is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 2(f) under “Report on Other Legal and regulatory requirements’ of our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **AASHKA HOSPITALS LIMITED** (“the Company”) as of 31st March 2023 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

11. TAXES ON INCOME :-

Tax Expenses for the year, i.e. Current Tax is included in determining the net profit for the year. A provision is made for the current tax liability computed in accordance with relevant tax rates and tax laws.

Minimum Alternative tax (MAT) paid in accordance with the tax laws, which gives rise to future economic benefits in the form of adjustment of future income tax liability, is considered as an asset if there is convincing evidence that the Group will pay normal tax after the tax holiday period. Accordingly, MAT is recognized as an asset in the balance sheet when it is probable that the future economic benefit associated with it will flow to the Group and the asset can be measured reliably.

Deferred Taxes reflect the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier year. Deferred Tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date.
